

## SOLUTION FOR INTERACTIVE TOUCH PROJECTORS ON HAWM - Boards for interactive technologies

Designed to provide, to everyone, an optimal interactive experience that combines a interactive touch projector, a traditional writing surface and a height-adjustable system. The SOLUTION simple and triple boards for interactive touch projectors simplify the installation and adjustment of the laser curtain and allow a maximum size image to be projected. They can be turned into a triple board by adding two wings. Moreover combined with the height-adjustable HAWM system, the SOLUTION boards become accessible to people of all ages, sizes and abilities.

### Details

**SIMPLIFIED SETTING AND MAXIMUM IMAGE SIZE:** The reservation (H90 mm) allows to install the touch module on the same level as the projection surface (one-piece board) for an easy setting and to project a maximum image size (H1101xW1762/16:10 81" for the 130xW200 cm).

**COMPATIBLE WITH ALL TOUCH MARKET PROJECTORS**

**FRAME AVOIDING INTERFERENCES:** Made from anodized aluminium, it avoids the interferences due to the brilliance of standard profiles.

**VERSATILE:** Interchangeable wings that can be retroactively installed to turn a simple board into a triple board.

**ENVIRONMENTALLY-FRIENDLY AND SUSTAINABLE:** NF Environnement certification. Eco-friendly materials such as the e3 enamel surface, guaranteed for life\* and 99% recyclable, which offers greater resistance to scratches, bacteria and chemicals. \*Under normal conditions of use.

**SAFE FOR USERS:** NF Education and NF Collectivité certifications.

**AVAILABLE IN PROJECTION OR SCREEN WHITE:** Check out our guide.

**ACCESSIBLE:** The HAWM height-adjustable system makes the board accessible to people of all ages, sizes or abilities.

### Materials

e3 enamelled steel surface vitrified at 800°C available in marker white. Reservation in anthracite grey lacquered steel which is not writable. Backing made from high density chipboard (8 mm), certified to PEFC, recyclable to 99%.

Frame in smooth anodized aluminium (5 µm).

Counterbalancing with galvanized steel (0.3mm) which maintain absolute flatness of the panel over time.

Bonded using polyurethane glue with absolutely no VOCs.

Grey plastic protective caps, marked to facilitate sorting at the end of the product's life.

Anodised aluminium pen tray.

The metal compass hinges allow the triple board to be mounted cantilevered.

### Certifications & warranty

Board: 2 years / Enamel surface: for life.

The product is certified to EN ISO 28762 / EN14434, NF Éducation, NF Collectivité and NF Environnement.

The chipboard is certified to PEFC.

This product is manufactured in a French factory which is certified to ISO 9001, ISO 45001 and ISO 14001.

M2 fire rating.

## Technical drawing

\*Calcul de l'image projetée interactive en considérant les recommandations d'usage pour un vidéoprojecteur avec module interactif tactile :  
Ecartement de 100 mm des profils verticaux aluminium  
Ecartement de 20-25 mm du profil horizontal bas et du module interactif
