

Large width board easy to receive and install.

Classrooms, meetings and trainings rooms as well as laboratories and think tanks will finally have their large writing & displaying wall surfaces. the HORIZON range avoids the material and financial restrictions (tight stairway to meeting rooms or small budgets) and extends the communication spaces by providing big sizes boards up to 6 meters wide.

Details

LARGE WIDTH: A surface without any writing break measuring till 6 m length on 120cm height.

EASY TO RECEIVE AND INSTALL: The delivery and installation issues related to big sizes boards made of a single panel were a real restriction to their use in meeting rooms. Indeed the transportation per unit of boards bigger than 4m results in 70 per cent of cases in damages against 0.5 per cent for boards smaller than 2m. Packed in several parcels and easy to assemble thanks to a clever and aesthetic system, the HORIZON board is composed of 2 panels in e3 ceramicsteel which are juxtaposed without profile.

ENVIRONMENTALLY-FRIENDLY AND SUSTAINABLE: Eco-friendly materials such as the PEFC certified substrate and e3 enamel surface, guaranteed for life* and 99% recyclable, which offers greater resistance to scratches, bacteria and chemicals. *Under normal conditions of use.

AVAILABLE IN MARKER OR PROJECTION WHITE AND CHALK

GREEN: Marker or projection white for writing with markers and projecting, chalk green for writing with chalk. Check out our guide.

MAGNETIC SURFACE: To display using magnets.

HOOKS TO HOLD MAPS/PAPER PADS AND PEN TRAY.

Materials

Set of 2 symmetrical and joinable panels to be placed in a retaining profile which is also a pen tray along the entire length. The junction without any writing break is reinforced by 2 magnetic plates to be set up at the back of the panels. The top profile allows to wall mount the panels and it includes hooks to hold maps.

Rounded protective end caps in grey plastic for user safety.

Enamelled steel surface vitrified at 800°C available in marker or projection white and chalk green.

Backing made from high density chipboard (8 mm), certified to PEFC, recyclable to 99%.

Counterbalancing with galvanized steel which maintain absolute flatness of the panel over time.

Bonded using polyurethane glue with absolutely no VOCs.

Frame made from smooth anodised aluminium.

Certifications & warranty

Board: 2 years / Surface: for life.

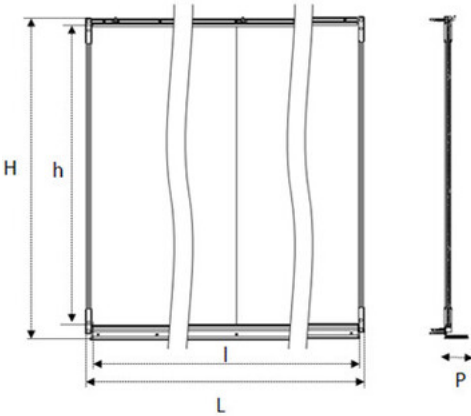

The product is certified to EN ISO 28762 et EN14334.

The chipboard is certified to PEFC.

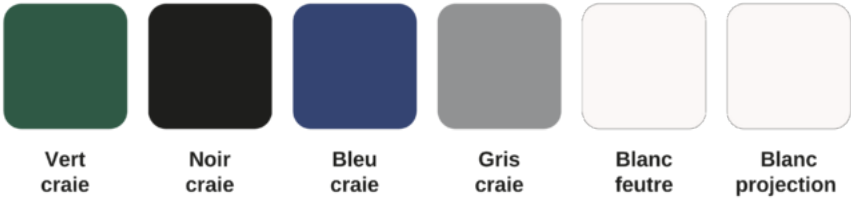

This product is manufactured in a French factory which is certified to ISO 9001, ISO 14001 and ISO 45001.

M2 fire rating.
