## Room to collaborate

New ways of working require innovative work environments. As we see our workplaces evolve to more cooperative and dynamic spaces, we believe that an interior design should meet these renewed expectations, aiming to optimise and functionalise the space.

**We design and manufacture unique solutions to provide inspiring collaboration experiences.** Therefore, we work with a team of dedicated designers to create the working environment of tomorrow together. We want to take our customers on a journey where we commit to deliver a project according to their wishes.

We control the entire production process ourselves. All our products – from whiteboards to glass boards, from mobile solutions to complete wall to wall systems – are manufactured in our own factories. By real craftsmen, who can rely on more than 160 years of experience. **Innovation based on tradition and trust is what makes the 'Signature by Vanerum' brand exceptional.**

1

VIDOC partition walls create a private area for concentrated work or one-on-one meetings.

2

MONDI GALLERY – composed out of modular elements – offers endless possibilities to create a collaboration space that bests meet the users preferences.

3

JUNE screens provide protection between co-workers, offering the possibility to continue to collaborate and communicate.

**1**  
GLASSBOARD VOGUE enriches environments with its elegance. Choose any colour to fit the room and style.

**2**  
Use JUNE partition walls to organise and reorganise spaces, ensure sanitary safety while allowing visual collaboration.

1

LEAF – a stylish showcase to effectively communicate all kinds of messages. A proven concept with a neat design.

2

TIPI separates areas for meetings or brainstorm session in an open space, providing writing or sound absorbing surfaces.

GLASSBOARD

# VOGUE

*"And you can dance. For inspiration"*

Madonna

*“The best colour in the world is the one that looks good on you.”*

Coco Chanel

GLASSBOARD Collection. An infinite palette of colours and possibilities. Glass boards – fixed or mobile – truly offer opportunities to design cosy environments, favourable to collaboration and innovation.

Shades of blue create a peace and tranquillity. Blue has a calming effect. It allows you to rest your mind, relax and take a break. People are supposed to be more productive in blue rooms. We concentrate more easily once relaxed, which boosts our productivity.

Green is a harmonious colour that often symbolises nature and is associated with health, youth, safety and environmental awareness. With an effect both calming and refreshing, green creates a balance and stimulates creativity.

RAL 1026

RAL 1018

RAL 1003

Yellow is a universal solar symbol that is often associated with optimism, joy and energy. This colour attracts our attention, and it is often said that it sharpens memory and reflection. Yellow is a colour that encourages people to express their ideas.

RAL 3014

RAL 3028

RAL 3003

Red is a colour that quickly attracts our attention and makes our heart beat a little faster. It is the colour that we see first and that we forget last. Red represents energy and passion, power and strength and makes people become more active.

MONDI

# MUSE

*"Art is not made for anybody and is, at the same time, for everybody."*

Piet Mondriaan - Dutch painter

MONDI Collection. A large choice of durable and recyclable materials to match any interior design, company identity or team's needs, optimising functionality in every environment.

### **Experience agility!**

A more effective and flexible way of working makes it easier for teams to deliver projects on time and quickly tackle any problems.  
A dynamic meeting place for maximum collaboration with flexible furnishing for frequently changing teams.

### **Experience productivity!**

Bringing the right tools within reach of individuals facilitates innovations and maximises users experience. A cooperative space for sharing thoughts and developing new ideas together, creating new products in a productive community.

**Experience creativity!**

Designing and decorating a space in a way that is original and pleasant to look at, yet functional at the same time, enhances motivation. A place to stray away from typical office conventions and find renewed creativity.
